# WOOD CONDITIONING

## Protect and enhance your cutting boards

Our cutting boards ship unfinished.

We can apply a food grade cutting board conditioner made from mineral oil and beeswax.

This combination offers the penetrating qualities of mineral oil with the sealing qualities of beeswax.

### Cutting Board Conditioner

Bring out the natural grain and color of the wood.

This wood conditioner will not only preserve the board, it will prevent stains and cracks from happening. To ensure longevity of the board, condition at least once a month.

Model number: COND  
8 OZ
